We are changing our reality by bringing Black artists front and center. Black Artist Foundry challenges systemic barriers by elevating Black culture and providing resources to sustain creative careers.

Put simply, we provide funds, space, and community to Black artists. The bigger picture is that we address inequity in the arts by granting funds and opportunities to Black artists. Art shouldn't have to be a side hustle and our mission is to encourage and empower Black artists to pursue their passion.

We are Black AF.
